Do you, or does anyone in your household, have a financial or employment interest in any healthcare related business?:

No

Please describe.:

NA

Should the state be advertising and otherwise promoting the vaccine using taxpayer dollars? Why or why not?:

No. That's the role of the pharmaceutical companies - to market and promote with their advertising budgets. Government should be small & stay out of the private medical decisions citizens make.

Did ADH and ABC have authority to issue the mask-related fines to small businesses last year?:

No

Should the legislature force ABC and ADH to return the mask-related fines collected last year?:

Yes

What is your position on SB 730 (the Garner bill)?:

For

What is your position on SB 731 (the Ballinger bill)?:

For

What is your position on SB 732 (the Blake Johnson bill)?:

For

What is your position on SB739 (the Hammer bill)?:

For

Do you believe the state has to respect and otherwise enforce unconstitutional federal mandates? At what point does state sovereignty apply?:

No. When the federal government overreaches by declaring unconstitutional mandates, the state must protect its citizens.

Are you, or is anyone in your household, a public school

teacher or otherwise employed by a public school?:

No

Do you believe that CRT, or some form of it, is currently being taught in Arkansas schools?:

Yes

What is your position on CRT?:

Needs to be banned from public institutions - it's divisive & unAmerican. It's in our schools under many names (DEI) but it's Marxist roots are the same.

What is your position on school choice? If you support it, what form do you support (e.g. complete choice, limited vouchers, choice limited to other public schools)?:

Complete choice.

Should any abortions be legal in the state of Arkansas?

Please explain.:

No. Murder is murder. I have respect for life at all stages. Conception to natural death.

Are you in favor of the concept of limited government, and do you commit to support the Republican Party platform as written?:

Yes, 100%

Do you support reducing / eliminating the state income tax? If so, what process would you support to accomplish it (e.g. gradual reduction, drastically cut state government, increase sales or property tax)?:

Yes. Drastically cut state government.

Have you accepted (or would you accept) money from Tyson, Walmart, the state chamber, or the hospital lobby?:

No

What bill should the legislature pass immediately to do the most good for Arkansans?:

School choice. Our children are the future of this state. We must remove the indoctrination/social justice agenda and get back to the basics of education.

Why did you choose to run specifically for this office and not another one?:

I don't want to sit back and be another keyboard warrior in this election cycle. If we want change in our

representation, we need to go make it. True conservatives need to step up. I'm willing to do that. I don't want to face my children one day and have them wonder why someone didn't DO something to protect freedom.

On which legislative committee are you most interested in serving, and why?:

Education. My 4 children are public school students. We need to shed sunlight on the curriculum being taught in our schools. Our children are the future leaders of our state. If we continue to allow the leftist indoctrination of our children, we will continue to lose our freedoms and liberties.

What is your top priority once in office?:

Ban CRT, stop the leftist social agenda in schools. Parental rights. Cut taxes.

Is there anything else you would like to share?:

I love America and felt led to run for office as a conservative outsider to make positive change for our state.
